FULL STACK DEVELOPER

Software Developer with 10+ years of experience architecting, building, deploying, and scaling web, mobile, and desktop applications. Strong full-stack expertise across Flask, React, React Native, AWS, and DigitalOcean, with experience taking software products from initial concept through production. Skilled in system design, API integrations, cloud infrastructure, and building intuitive user experiences. Currently expanding expertise in AI/ML application development.

RELEVANT SKILLS

- Languages: JavaScript, Python, Ruby, HTML5, CSS3, SCSS
- Frontend & Mobile: React.js, Next.js, React Native, Angular.js, Vue.js, Electron.js
- Backend & APIs: Node.js, Express.js, Flask, Django, Ruby on Rails, GraphQL, REST APIs
- Databases: MySQL, PostgreSQL, MongoDB
- Cloud & DevOps: AWS (EC2, Lightsail), DigitalOcean, Nginx, Gunicorn, Cloudflare, Git, GitHub
- AI & Developer Tools: OpenAI API, Postman, Unit Testing, OOP, Algorithms & Data Structures

WORK EXPERIENCE

Software Developer (Freelance, Remote) May 2024 - September 2024
VideoLocalize (Markham, Ontario)

- Occasionally worked with the CEO on videodub.ai.

Software Developer (Contract, Remote) February 2024 - May 2024
VideoLocalize (Markham, Ontario)

- Collaborated closely with the CEO and Product Lead to build and host cloud-based SaaS web applications.
- Developed a user registration and authentication system utilizing Flask and React.js, improving overall platform UX and security.
- Engineered an IPA Phonetic Transcription tool (videodub.ai) using Flask and React.js to streamline audio/video localization workflows.

Full Stack Developer (Freelance, Remote) September 2023 - October 2023
Softek

- Designed functional UI components for a social networking web application using React.js.

KEVIN HIEN LUONG MAI

Toronto, ON, Canada | 647-926-3868
kevin.mai796@gmail.com

- Built modular RESTful backend APIs in Flask to handle user data and dynamic social feed interactions.

Front-End Developer (Contract, Remote) April 2021 - July 2021
Fintelics (North York, Ontario)

- Improved core interface components for a decentralized application (DApp) built on React.js.
- Developed cross-platform mobile app screens using React Native, delivering key milestone releases on schedule through active client collaboration.

PROJECTS

Creator & Full Stack Developer (plamogee.com)
Plamogee
January 2024 - Present

- Built a cross-platform note-taking and organization application for Web (React.js), Mobile (React Native for iOS/Android), and Desktop (Electron.js).
- Implemented a multi-channel reminder pipeline delivering notifications via email, mobile and push notifications.
- Deployed Python/Flask backend and frontend services on DigitalOcean droplets running Ubuntu, Nginx, and Gunicorn with Cloudflare DNS management.

ShopLove - Software Developer
October 2023 - February 2024

- Developed a high-performance fashion marketplace web/mobile web app using React.js, Node.js, and Express.js.
- Integrated Shopify APIs on the backend to dynamically fetch products, query collections, and manage real-time cart states.
- Deployed application infrastructure on DigitalOcean utilizing Nginx as a reverse proxy.

EDUCATION

Advanced Diploma in Software Engineering Technology - Artificial Intelligence
September 2025 - Present

- Cumulative GPA: 4.12
- Relevant Coursework: Programming 2, Client-Side Web Development, Programming 1, Web Interface Design, Software Engineering Fundamental
